WORK

11 Months Exp | Blisstech Solutions Pvt Ltd(Delhi, India) | July 2025

Working as a Website and Frontend Developer, responsible for developing responsive interfaces and improving user experience across company products. Collaborating with designers and backend developers to implement modern UI components and scalable web solutions.

PROJECTS

- **Blisstech Solutions Website**
Developed and maintained the official company website, focusing on responsive layouts, optimized performance, and a clean user interface to effectively present company services and products.
- **BlissMeeting**
Worked on the frontend development of the BlissMeeting website, implementing responsive UI components and improving the overall user experience for meeting and collaboration features.
- **ServoJi**
Contributed to the development of the ServoJi website, a platform for doorstep service management. Implemented responsive pages, improved UI consistency, and ensured smooth interaction across devices.
- **TrustNode Ledger**
Developed the frontend interface for a desktop application built with Electron.js, designed to help professionals analyze financial data and manage transaction records through structured dashboards and intuitive workflows.
